

Domain Approval

This is the webpage that you may have been directed to after verifying your contact data for a domain that we are a reseller of opensrs for. That website might have been approve.domainadmin.com or approve-domain.cocoavillagepublishing.com.

IF so, then the action was deemed successful and you can close this page.

Apologies for all these extra steps. Starting January 2014 a lot more bureaucracy is required for domain names. If you have any doubts or concerns, call/text/email us. If you are unsure or have questions, do please [contact us](#) [1]. Unfortunately some spammers have tried to take advantage of the extra layers of approval to "phish" domain owners so we don't mind you calling or forwarding an email to review if unsure.
