

Domain Name Services

Domain Name System (or *Service*), an internet service that translates [domain names](#) [1] into IP addresses. Because domain names are alphabetic, they're easier to remember. The Internet however, is really based on [IP addresses](#) [2]. Every time you use a domain name, therefore, a DNS service must translate the name into the corresponding IP address.

We have our own Internet Servers that provide primary and secondary Domain Name Services to support your service.

PRICE

Please note that some of our subscription services like the Web Site hosting may include this service and not require a subscription fee. We offer this service as a separate item for customers who want the support but don't use our other services that include this service. We ask a one time setup fee of \$34.00, a labor charge per professional hour will be requested if customer requires assistance beyond the terms of the service, and a subscription of :

NOTE: To add a domain name and support it on our domain name servers, like spacecoast.org, the domain has to be registered. We are authorized to [sale domain names by TUCOWS/OPENSRS](#) [3].

- \$0.00 for initial accounts if customer already subscribes, else \$60.00 per year
- *The customer may elect to defer the annual payment and make semiannual payments at a rate that would be 10% more than annual, quarterly at 15% more than annual, or monthly at 20% more than annual. **The customer shall be responsible for returning payments in timely manner. The company shall not be responsible to remind customer to make payment:*** \$0.00 for initial accounts if customer already subscribes, else \$33.00 for six months, \$17.25 for three months, \$ 6.00 per month.
